

**ST. BERNADETTE**  
CATHOLIC SCHOOL

*With faith and education, we thrive together!*

Thank you for your interest in St. Bernadette Catholic School for the 2023-2024 school year. We are proud to say that we have been educating generations in Catholic education for seventy years.

The curriculum followed at St. Bernadette School is written by the Diocese of Cleveland and based on the Ohio Department of Education state standards. It is an enriched curriculum, infused with Gospel values across all subject areas. A wide variety of co-curricular activities and CYO sports enhance our students' experiences.

One of the qualities that sets us apart is our advanced math offerings for our high achievers. Students in seventh and eighth grade have an opportunity to take Algebra 1 and Geometry for high school credit.

Our computer classroom was recently renovated into a new *Innovation Lab*. This lab provides a creative and collaborative space for students. This lab houses many of our technology tools: 3-D printer, Sphero Robots, Little Bytes Circuits, Glowforge, Drones, VR Goggles, Osmos, NXT Lego Robots, green screen and a live broadcast area.

We are currently updating our school library. Recently we purchased 295 new titles. Our librarians have been cycling out older books, to make room for these new ones.

St. Bernadette school empowers children to live their faith while promoting academic excellence. With a dedicated faculty, strong academic programs, and a vibrant Bulldog community, St. Bernadette is the right sized school, with a big heart.

Sincerely,

Mrs. Maureen Goodwin  
*Principal*
